

Pressure Vessels Engineered To The Highest Quality Standards

A NEW TYPE OF PRESSURE VESSEL COMPANY

With over 50 years of combined experience in FRP pressure vessel engineering and design, we specialize in the manufacture of high quality pressure vessels.

Advanced Engineering Design

Pressure vessels designed to provide long-term, trouble-free operation, with minimal down time and improve running costs.

We provide:

- Pressure vessels for small to medium size plants
- Pressure vessels for large commercial size plants
- Installation and after-sales services
- Custom-designed vessels with high chemical resistance

At First Line we engineer high quality pressure vessel solutions that fit your need. First Line uses only high quality materials and reliable parts that undergo rigorous quality control standards. Our highly experienced, trusted and trained engineers have performed numerous service installations worldwide.
